

Corporate Presentation

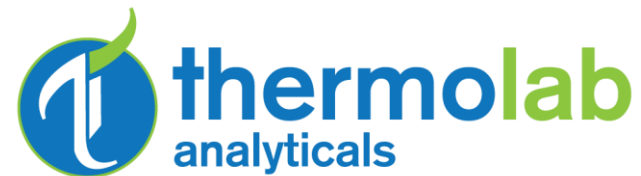

50
years of
excellence

Thermolab group

One stop Solutions for all your Stability requirements

Total workforce of 500

An ISO 9001: 2015 accredited company

Product Range

- **Stability Chamber**
- **Walk-In Type Stability Chamber**
- **Cooling Cabinet**
- **Cold room**
- **Photostability Chamber**

Stability Chamber

Walk-in Stability Chamber

- **Other Products Manufactured**
- **Ovens**
- **Incubators**
- **Deep-freezers**
- **Autoclave**
- **Vacuum ovens**

Incubator

Oven

Other Products Manufactured (...continued)

- **Bio-safety Cabinets**
- **Laminar Airflow Unit**
- **Water baths**

Microbiological Safety
Cabinet

- **Manufacturing capability of 1500 equipments per year.**
- **Most preferred brand in Indian Pharmaceutical industry for Stability Chambers.**
- **All chambers are manufactured in line with ICH guidelines and cGMP requirements.**

Cooling Cabinet

Oven

Largest Walk-in Type stability Chamber supplied is of 2,67,500 Ltrs volume

Largest Cold Room (2°C to 8°C)
manufactured is 7,14,000 Ltrs Volume

Awards Received:

- Awarded 'Leader in Sustainable Stability Chamber' by UBM India Pharma Awards
- NSIC-D & B- SMERA Performance & Credit Rating 2011 of **SE 2A (High Performance and High Financial Strength)**
- **“India Design Mark 2012”** for Stability Chamber, a global quality mark, by Govt of India.

Awarded in 2012 for Thermolab Stability Chamber
Ministry of Commerce & Industry,
Govt. of India

Projects completed by Thermolab

International Business

- Installations in around 50 countries
- Client base of more than 2000 customers
- Efficient channel partners with proven capabilities
- Sustained growth rate of 10 % every year
- Competent and efficient export team
- Dedicated service support for export customers

Global Presence

Our Clientele

Testimonials

Pfizer

Prasad V. Kanitkar

The chambers are continuously in working condition and we are satisfied with their performance. We are satisfied with the after sales service provided by Thermolab and wish them success in their business.

Cadila Healthcare

GM, ADLab - PTC

Tushar Bhatt

We have been using Thermolab Walk in Stability Chambers and Standalone Stability Chambers since last 15 years. The Qualification documents provided are acceptable to all regulatory agencies. We are satisfied with the performance of Chambers and After Sales Services provided by Thermolab.

Wockhardt

Dr. Arun Jadhav

Vice President - Quality

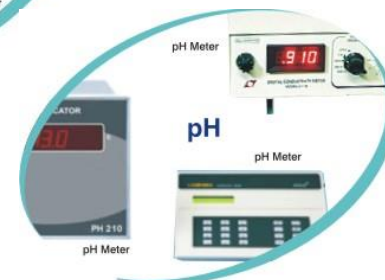

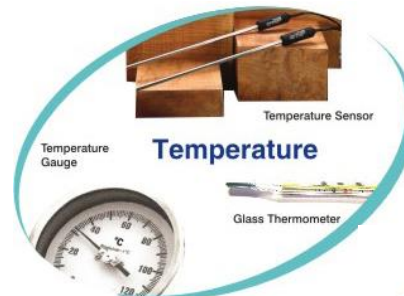

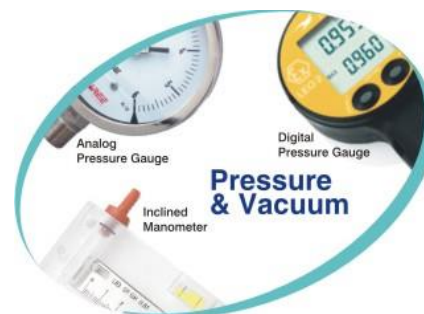

We are using Thermolab Equipments since last 10 years, and we are satisfied with the performance, sale and services of the equipment's

An NABL Accredited Testing Laboratory

Services Offered

- Calibration & Validation of plant and machinery related to all segments including pharmaceuticals.
- Calibration of pressure, vacuum, temperature, relative humidity etc.
- Validation of equipments such as humidity chambers, walk in type humidity chambers, autoclaves, dry heat sterilizers, BOD incubators

Quality System NABL (1/2)

- Provide calibration services as per our documented quality management system laid down in line with ISO/IEC 17025:2005 to the satisfaction of our customers.
- Assure reliability of our calibration results by ensuring traceability to National or International Standards.

Services Offered

- Established in the year 2008 serving as an independent after-sales support globally for...
 - ✓ AMC
 - ✓ Calibration and Validation
 - ✓ Modification
 - ✓ Installation
 - ✓ Spares
 - ✓ Repairs

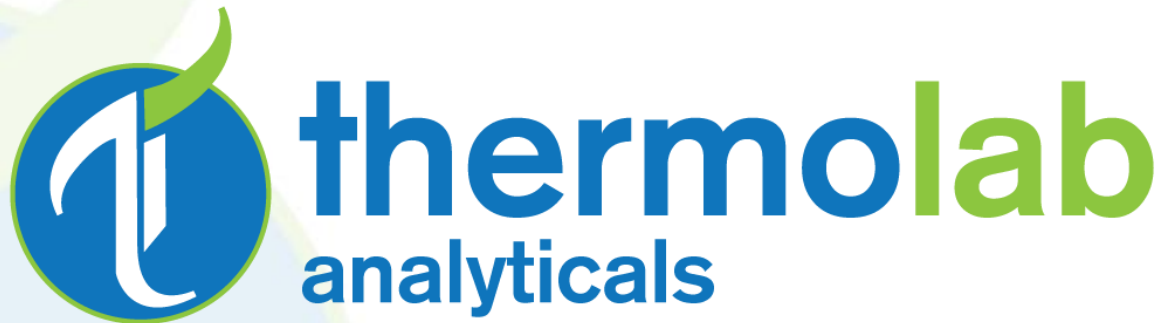

Service Support

- Team of 120 on field service engineers working for India and overseas.
- Online support from head office

International Service Support

- Strong service support available in 29 countries provided by our channel partners.
- Training given to international customers on maintenance and qualification of chambers.
- Online service support for overseas customers

Analytical testing Laboratory and Stability
Storage Facility

Analytical Lab Area

Introduction to Thermolab Analyticals

- Thermolab Analyticals is a Thermolab group company providing Analytical testing laboratory and stability storage facility with state of the art facility.
- Thermolab Analyticals aims to perform stability studies for pharmaceutical products and drug substances at all stages of the registration process and post market surveillance.
- Thermolab Analyticals is approved public testing laboratory by FDA Maharashtra
- It is an ISO certified and NABL accredited laboratory.

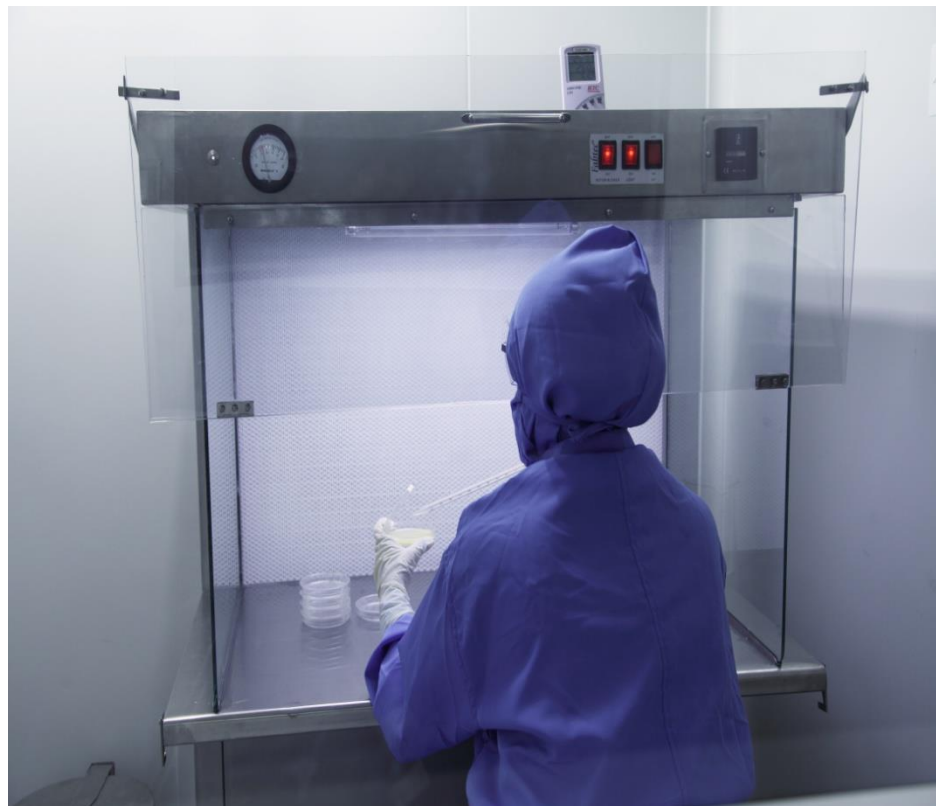

Stability Studies – Outsourcing Advantages

- Outsourcing Stability studies enable companies to:
 - ✓ Utilize internal resources on core competencies, new drug development and developing novel drug delivery systems.
 - ✓ Eliminate need for large capital investment and maintenance on Analytical equipment and Stability Chambers.
 - ✓ Improve speed of entry of the product into the market.

Thermolab Analyticals – Road Map

- Certification for Thermolab Analyticals
 - ✓ **European regulatory authorities**
 - ✓ **USFDA certification**
- Expansion (Head count and equipment)
- Formulation R & D laboratory

www.thermolabhealthcare.com

- Established in the year 2011
- Engaged in manufacturing of Pharmaceutical products.
- World class -WHO cGMP approved manufacturing unit established in Lote, Dist: Ratnagiri, Maharashtra, India.

Thermolab Group Future Business Vision

Thermolab Group - Future Business Vision

- Prospective joint venture and technology transfer for stability chambers
- Joint venture for new product range
- Distributorship for technically advanced international brands for laboratory equipments
- Enhance testing service by addition of new test parameters in clean room validation.
